Inner sight

An interactive AR book game

Scan the QR CODE and go back to the correct page.

Page 10

Page 12

Page 14

I don't know what's going on.
Everything changes.
I hope someone found my book.

With this sketchbook you can help me.
I thought nothing bad would happen if I used inner sight
in all my designs. But everything changed with Mr. Q.
I want you to be careful.
If you keep flipping through the book,
the inner sight will become yours to use.

But think twice before you go on because
when you get to Q everything will change. He'll try to trap you.
Like me.
I don't know you, but you're my only hope.

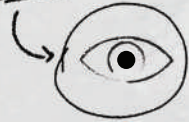

How to use your inner sight

The first thing you need to do is to believe in magic

When you see the eye symbol you can use your inner sight

To use the inner sight just go to page 4 and find the correct QR code

* There are pages without the eye symbol
To use inner sight, scan the QR code

Do not forget to touch the magic illustrations
and listen to your inner sight

And please find my missing notes we need them

Riddle Answer = NOTE

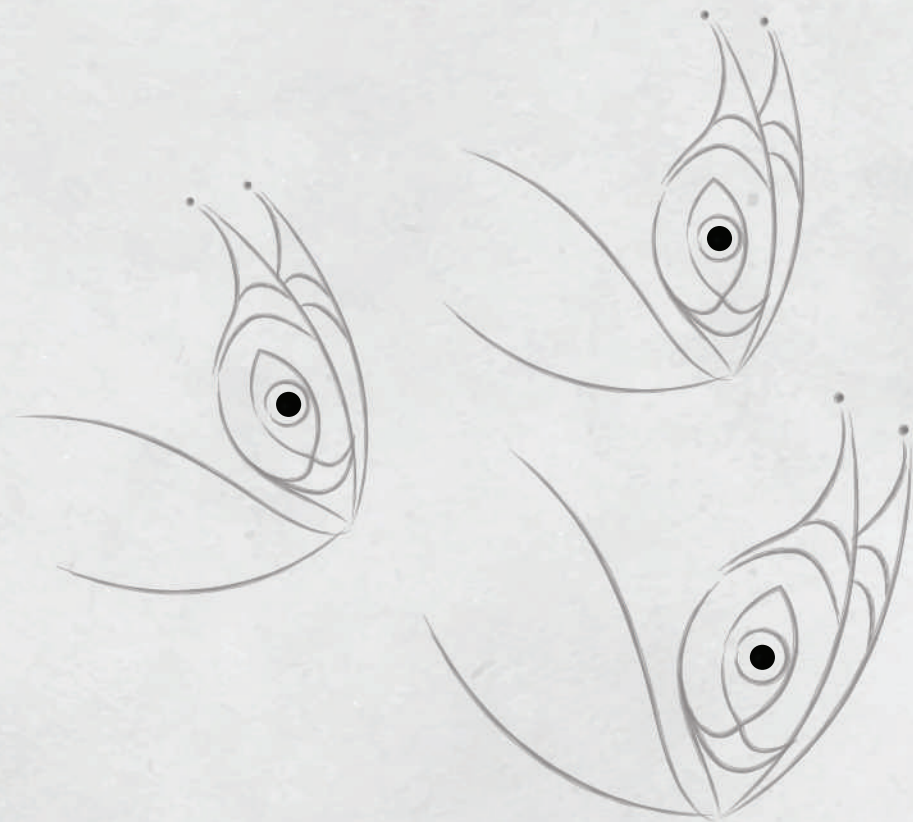

The butterfly

A powerful symbol of growth and new beginnings

The power of transformation and all the incredible things we can achieve when we trust ourselves.

Now you can get a little closer to her...

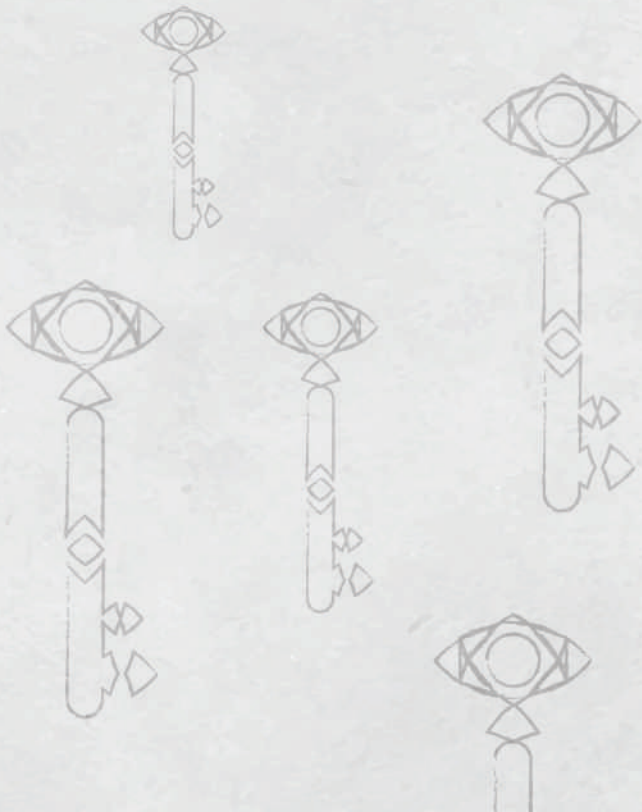

For some time I've been thinking about creating a character.
I've always liked puzzles so I came to the conclusion to create Mr Q.

The creator of the Riddles.

But something has changed.
When Mr. Q comes to life, he's not willing to turn back

It's starting to affect me and everything I'm drawing

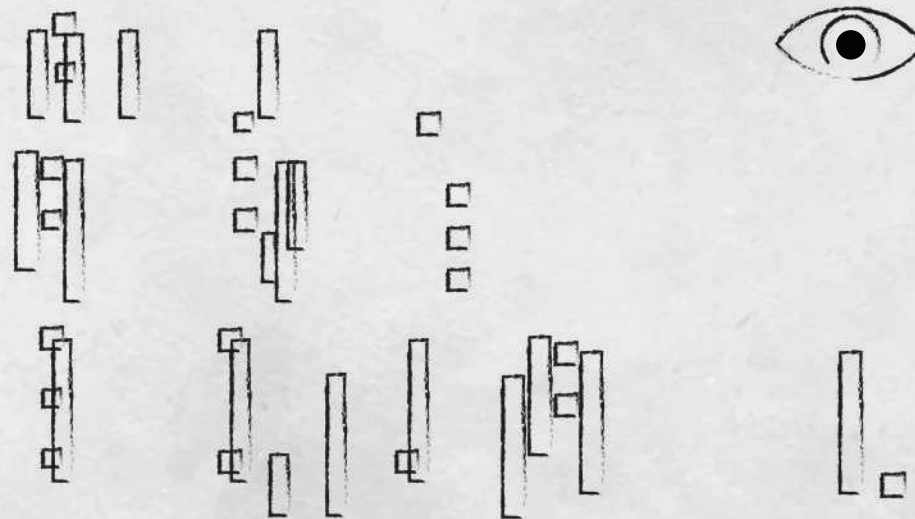

Mr. Q

A strange city...
Buildings, buildings, buildings...nothing else...
It makes you lose your mind.

But what are these symbols?

Be careful because I don't know what "Q" might
have hidden between the corridors...

NOTE 1

$$\square + \text{circle} + \text{dodecahedron} + \triangle = 8$$

$$\text{circle} + \text{inverted triangle} + \text{hexagon} + \text{dodecahedron} = ?$$

An old dark room
I can't see almost anything

There seems to be something at the end of it.
And this strange music. . .

I need to get closer.
I think it's a. . .

NOTE 2

A - B W B W

B - R Y B W

C - B R W Y

D - Y R B W

E - B B W

F - R R R Y

G - B R Y W

H - R R Y

I - B B B W

J - R R B
